ERRATIC

A. Loose

B. Faulty

C. Regular

D. brave

9. Identify the meaning of the idiom from the options given:

A bird's eye view

A. Without care

B. Within the walls

C. An overall view

D. Out of place

10.Select the correct word from the answer

Farmers know that changing winds …… rain or drought

A. Bring

B. Create

C. form

Premier Entrance Preparation Program

D. present

11. The HCF (highest common factor)of 3556 and 3444 is:

A. 23

B. 25

C. 26

D. 28

12.If a+b=5 and 3a+2b=20, then(3a+b) will be:

A. 10

B. 15

C. 20

D. 25

13.If the sum of a number and its square is 182, what is the number?

A. 15

B. 26

C. 28

D. None of these

14. 88% of 370+24% of 210–?=118

A. 256

B. 258

C. 268

D. 358

Premier Entrance Preparation Program

15.Choose the correct alternative based on the relationship:

Tractor:Trailor::Horse:?

A. Stable

B. cart

C. saddle

D. engine

16.Choose the word which is least like the other words in the group:

A. Geometry

B. Algebra

C. Trigonometry

D. mathematics

17.Choose the number which is different from others in the group.

A. 8314

B. 2709

C. 1315

D. 2518

18.If PALE is coded as 2134, EARTH is coded as 41590, how is PEARL coded in that code?

D. William James

84.The word Gestalt is synonymous to

A. Perception

B. Configuration

C. Thinking

D. Synthesis

85.Primary orditory cortex lies in

A. Frontal lobe

B. Parietal lobe

C. Temporal lobe

D. Occipital lobe

86.……involves increasing a behavior by withdrawing a stimulus

A. Negative reinforcement

B. Positive reinforcement

C. Positive punishment

D. Negative punishment

87.……occurs when the information already present in the memory interferes with the learning of newer information

A. Proactive interference

B. Retroactive interference

C. Decay encoding failure

D. Retrieval failure

88.Name the theory of pattern recognition where an individual recognize the object based on the degree of overlap between the image generated by the external stimulus and the internal mental representation of the stimulus

A. Feature detection theory

B. Template matching theory

Premier Entrance Preparation Program

C. Recognition by-components theory

D. Viewer-centered approach

89.According to……,individuals tend to perform best at moderate levels of arousal

A. Yerkes-dodson law

B. Weber's law

C. Yates law

D. Steven's law

90.Who defined intelligence as a general ability that involves mainly the education of relations and correlates?

A. Spearman

B. Binet

C. Thurstone

D. Terman

91.Which approach to personality emphasizes the innate goodness of people and their desire to grow?

A. Psychodynamic

B. Humanistic

C. Behavioural

D. Trait

92.The …… asks the client to look at a picture and tell a story while the ……asks the client to look at an ambigous figure and report everything that they see.

A. Rorschach, thematic apperception test

B. MMPI, thematic apperception test

C. Thematic apperception test, Rorschach

D. Rorschach, MMPI

93.A math teacher provide cues to children to solve the problems and support them as and when needed. As the children become capable of solving the problem, the teacher withdraw the help. This is an example of

A. Modelling

Premier Entrance Preparation Program

B. Reinforcing

C. Conditioning

D. Scaffolding

94.DSM 5 follows……approach

A. Categorical

B. Classical

C. Dimensional

D. Prototypical

95.In a normal distribution

A. Mean, median and mode coincide

B. Mean, median and mode never coincide

C. Mean is pulled towards right tail of the distribution

D. Mean is pulled towards left tail of the distribution

96.When asked to describe himself, a client is showing the tendency to place his experiences either as extremely positive or as extremely negative then he is showing

A. Magnification and minimization

B. Dichotomous thinking

C. Arbitrary thinking

D. Fragmented thinking
